The pH and EC are indicators of water quality for growing plants in closed systems. It is important to know the pH and EC of the growing medium and the nutrient solution. The pH and EC of the growing medium and the nutrient solution should be measured at least once a week. The pH and EC of the growing medium and the nutrient solution should be measured at least once a week.

Vegetables					
Plant	pH	EC	EC	EC	EC
Asparagus	6.5-7.0	2.0-3.0	2.0-3.0	2.0-3.0	2.0-3.0
